IPT Long-Lasting Batteries

IPT-9858-M27

Maximize your radio's performance with our Nickel Metal Hydride battery for Motorola XTS2500 radios.

Guaranteed Quality

Impact Power Technologies designs and manufactures high-quality and efficient batteries, chargers and portable power solutions.

IPT products undergo extensive testing at every phase of production to ensure safety, performance and reliability for your critical applications. Our batteries are made using the highest quality cells, proper operational safety circuitry, and strong, durable cases that can withstand a one-meter drop onto concrete.

Impact Power Technology batteries are guaranteed to be free of defects in materials and workmanship and will maintain 80% of their rated capacity for 12 months.

Features

High quality Japanese Cells

Longer Lifecycle: ≈ 500

Lighter Weight: **200g**

Specifications

Model: **IPT-9858-M27**

Chemistry: **Nickel Metal Hydride**

Operating Temp: **0°C - 50°C**

Capacity: **2700 mAh**

Operating Voltage: **7.5**
